

GANESH JAVHARE

UX Designer | MSc. UX Design

Location: London Email: gjavhare.ux@gmail.com Phone: +44 07818952147 Website: www.gjuxdesign.in

PROFESSIONAL SUMMARY

UX Designer with 7+ years of experience and a recently completed MSc in User Experience Design from Kingston University London, which has sharpened my end-to-end design practice with advanced methods in user research, interaction design, and evidence-based design thinking. As Design Lead for a large-scale digital platform, I managed the end-to-end user-centered design process for products used by over 6 million users, translating complex user needs into intuitive user flows, wireframes, and high-fidelity prototypes. Skilled in user research, information architecture, and building accessible, WCAG-compliant interfaces, I thrive in cross-functional teams, working closely with product managers, engineers, and researchers to iterate quickly and ship digital products that are intuitive, inclusive, and genuinely user-centered.

CORE COMPETENCIES & SKILLS

- **Core UX Methodologies:** User Research, User-Centered Design (UCD), User Flows, Wireframing, Prototyping, High-Fidelity Mockups, Usability Testing, Journey Mapping, Personas, Interaction Design, Information Architecture.
- **Cross-Functional Collaboration & Process:** Cross-Functional Collaboration, Agile/Scrum, Design Thinking, End-to-End Service Design, Stakeholder Management, Design Critique & Iteration, Inclusive Design.
- **Design Tools:** Figma, Adobe Creative Suite, Miro, FigJam, Jira, Power BI, Design Systems, AI-Assisted Design Tools (Google Stitch, AI Studio, Antigravity), Unity/WebXR
- **Accessibility & Research Standards:** WCAG 2.1/2.2 Accessibility Compliance, Usability Heuristics, Information Governance, Ethical Research Practices, Design Systems Governance.

PROFESSIONAL EXPERIENCE

Assistant Manager - UX Design Lead | MahaRERA, Mumbai

Jul 2022 – Aug 2024

MahaRERA is India's state regulatory authority for the real estate sector, overseeing digital platforms used by millions of citizens, developers, and legal professionals across Maharashtra. (Link-<https://maharera.maharashtra.gov.in>)

- Managed the end-to-end **user-centered design** process as the Design Lead for a large-scale digital product platform, shaping **innovative user experiences** across large-scale **web and mobile platforms**.
- **Collaborate closely with cross-functional teams**—including engineers, product managers, and legal stakeholders—to communicate ideas clearly and guide **technical and non-technical team members** through complex business and compliance requirements.
- Created **wireframing, prototyping, and high-fidelity mock ups** in Figma to clearly communicate **design concepts and user flows** for over 10 large-scale digital interfaces.
- Used qualitative and quantitative data to map user journeys, clearly visualising pain points and identifying opportunities where design improvements contributed to more effective and efficient service delivery.
- **Iterated quickly on prototypes** across various fidelities based on stakeholder feedback and **usability testing** outcomes, reducing overall iteration time by 25%.
- **Advocated for user-centred design** across the organization by clearly explaining user needs, challenges, and design ideas to multidisciplinary colleagues, building a shared understanding.
- Ensured all digital products complied with WCAG 2.1 accessibility standards, achieving 95% accessibility scores to deliver inclusive digital experiences for millions of users.
- Applied my UX/UI expertise in the **AI and machine learning space** by integrating generative AI tools into the early design phases to explore different aesthetic directions and content generation to speed up stakeholder alignment.

Jr. Technical Advisor (Jr. UX Designer)| MahaRERA, Mumbai

Jul 2017 – Jul 2022

In this role I combined UX and service design for high-volume digital platforms with translating complex business requirements into buildable digital products, using Adobe XD and Figma throughout.

- Designed the complete complaint portal and registration system , mapping out complex **user flows** to simplify form-heavy processes into intuitive, step-by-step journeys.
- Conducted **user research** and **usability testing** in agile environments to streamline citizen-facing workflows, translating complex back-office workflows into clean, accessible design.
- Delivered **wireframing** and **prototyping** using Figma , collaborating with cross-functional teams to embed compliance without compromising the overall user experience.
- **Led service design initiatives** using service blueprints, journey mapping, and stakeholder workshops to streamline user-facing complaint workflows, aligning back-office operations with improved front-end experiences.
- **Translated complex regulatory and domain requirements** into clear UX flows and design specifications, bridging the gap between subject-matter complexity and software development teams with precision.
- Designed SLA monitoring dashboards and conducted Power BI policy assessments; collaborated with legal and finance teams to embed compliance into platform functionality without compromising usability.

BHAVITRU Consultants, Pune | Urban Planner (Intern)

Dec 2016 – May 2017

- Conducted infrastructure deficiency assessments and coordinated stakeholder meetings, laying the foundational research and problem-solving skills necessary for a **citizen-centered policy design** approach, improving community engagement by 30%.

PLANITECH Consultants, Pune | Assistant Town Planner

Jun 2016 – Nov 2016

- Formulated town development policies conducted infrastructure deficiency assessments addressing 90% of identified gaps and designed spatial planning frameworks using GIS tools.
- Conducted foundational **user research** to identify critical usability issues, drafting intuitive solutions that streamlined workflows and reduced friction between citizens and local government.

EDUCATION

MSc in User Experience Design – (Jan 2025 – Jan 2026)

Kingston University London, United Kingdom

Bachelor of Technology in Town Planning-(2012 – 2016)

College of Engineering Pune, India

HSC (Higher Secondary Certificate), Science – (2011)

Indirabai Lalwani Junior College, Jamner, Maharashtra, India

SSC (Secondary School Certificate)- (2009)

New English School, Jamner, Maharashtra, India
